- WordPress

Education

- **HackerU – ThriveDX Group** 2023 - 2024
 - **Full Stack Web Development Program (535 Academic Hours)**

Completed a comprehensive Full Stack Web Development course, covering front-end technologies such as HTML, CSS, JavaScript, TypeScript, React, and back-end technologies such as Node.js, MongoDB, MySQL, phpMyAdmin. Demonstrated proficiency in essential Full Stack development tools through real-world projects.
- **Technological College Nof-Ha-Gallil** 2011-2014
 - **Industrial Engineering and Management - Production Systems**

A field of study focused on the design and management of production systems, improving work methods, production planning and management, employee management, quality assurance, and resource management.

Experience

- **Shift Manager - “TamaGroup”** 2015-2021
 - Management and ensuring continuous production and meeting performance targets.
 - Leading an 8-person team, providing guidance, evaluations, and feedback.
 - Inventory control, managing raw material orders and ensuring safety compliance.

Projects

- **Portfolio**
 - A responsive portfolio website showcasing web development skills with HTML, CSS, and JavaScript, demonstrating Full-Stack expertise and enhanced user interface design. Implemented a contact form that sends messages directly to my email, improving user engagement and communication.
- **business-cards**
 - Developed a full-featured business card management system, including content creation, login system, and REST API integration, showcasing Full-Stack development skills in React and Redux.
- **Final Project**
 - Developed a system for managing products and users, including authentication, with both front-end (React) and back-end (Node.js, Express, MongoDB) components, showcasing Full-Stack development skills in building secure, scalable web applications.
